EARN CONTINUING MEDICAL EDUCATION CREDITS!

**Emerging
Challenges
In Primary Care:
2009**

CONFERENCE

*Atlanta, GA
Westin Buckhead*

**Course Director
Gregg Sherman, MD**

**Activity Director
Michelle Frisch, MPH, CCMEP**

**Program Evaluation
September 1, 2009**

In August 2009, the National Association for Continuing Education (NACE) sponsored a CME program, ***Emerging Challenges in Primary Care: 2009***, in Atlanta, GA.

This educational activity was designed to provide primary care physicians, nurse practitioners, physician assistants and other primary care providers the opportunity to learn about diabetes, dyslipidemia, migraine, depression, spinal surgery, dementia, and chronic obstructive pulmonary disease.

In planning this CME activity, the NACE performed a needs assessment. A literature search was conducted, national guidelines were reviewed, survey data was analyzed, and experts in each therapeutic area were consulted to determine gaps in practitioner knowledge, competence or performance.

Two hundred forty five healthcare practitioners registered to attend ***Emerging Challenges in Primary Care: 2009*** in Atlanta, GA. One hundred twenty seven healthcare practitioners actually attended this conference. Each attendee was asked to complete and return an activity evaluation form prior to the end of the conference. One hundred twenty six completed forms were received. The data collected is displayed in this report.

CME ACCREDITATION INFORMATION

The National Association for Continuing Education is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The National Association for Continuing Education designates this educational activity for a maximum of 7 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

This activity has been reviewed and is acceptable for up to 14.25 credit(s) by the American Academy of Family Physicians. Of these credits, 7.0 conform to the AAFP criteria for evidence-based CME clinical content. CME credit has been increased to reflect 2 for 1 credit for only the EB CME portion. When reporting AAFP credit, report total Prescribed and Elective credit for this activity. It is not necessary to label credit as evidence-based CME for reporting purposes. The EB CME credit awarded for this activity was based on practice recommendations that were the most current with the strongest level of evidence available at the time this activity was approved. Since clinical research is ongoing, AAFP recommends that learners verify sources and review these and other recommendations prior to implementation into practice.

What is your professional degree?

Label	Frequency	Percent	Valid Percent
MD	100	79.4	79.4
DO	3	2.4	2.4
NP	11	8.7	8.7
PA	8	6.3	6.3
RN	4	3.2	3.2
Other	0	0.0	0.0
Total Valid	126	100.0	100.0

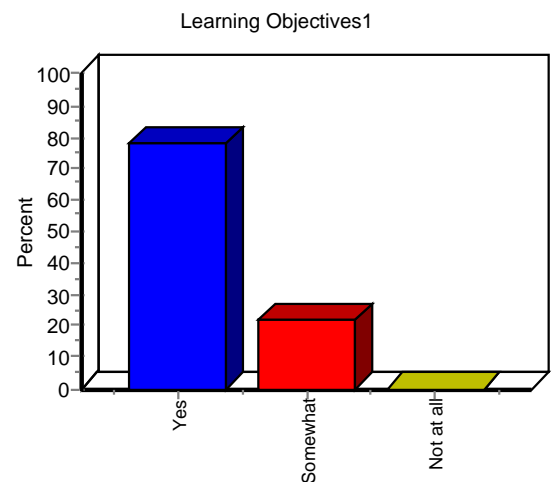

What is your specialty?

Label	Frequency	Percent	Valid Percent
Primary Care	107	84.9	84.9
Endocrinology	1	0.8	0.8
Rheumatology	0	0.0	0.0
Pulmonology	3	2.4	2.4
Cardiology	0	0.0	0.0
Gastroenterology	0	0.0	0.0
OB/GYN	0	0.0	0.0
Other	16	12.7	12.7
Total Valid	126	100.0	100.0

Upon completion of this activity, I can now - Compare newer therapies with traditional antidiabetic agents, and discuss their place in therapy; Discuss the practical use of new treatments for type 2 diabetes including incretin mimetics, DPP-IV inhibitors, and incretin analogs, and amylinomemetic; Explain the new American Diabetes Association Management Guidelines:

Label	Frequency	Percent	Valid Percent
Yes	98	77.8	78.4
Somewhat	27	21.4	21.6
Not at all	0	0.0	0.0
Total Valid	125	99.2	100.0
Total Missing	1	0.8	
Total	126	100.0	

Upon completion of this activity, I can now - Recognize the prevalence of cardiovascular events in diabetes despite achieving LDL goals; Recognize therapeutic guideline recommendations for patients with Diabetic Dyslipidemia; Describe the impact of HDL-C and Triglycerides on cardiovascular risk in the diabetic population; Utilize combination therapy more comfortably and appropriately in patients with mixed dyslipidemia; More effectively communicate with patients about Cardiovascular Risk and treatment goals:

Label	Frequency	Percent	Valid Percent
Yes	114	90.5	91.2
Somewhat	11	8.7	8.8
Not at all	0	0.0	0.0
Total Valid	125	99.2	100.0
Total Missing	1	0.8	
Total	126	100.0	

Upon completion of this activity, I can now - List the risk factors for major depression; Identify tools for the assessment of depression; List strategies for managing major depression in your clinical practice; Utilize treatment regimens tailored to individual patient needs, and increase chance of remission:

Label	Frequency	Percent	Valid Percent
Yes	109	86.5	87.9
Somewhat	15	11.9	12.1
Not at all	0	0.0	0.0
Total Valid	124	98.4	100.0
Total Missing	2	1.6	
Total	126	100.0	

Upon completion of this activity, I can now - Discuss the need for early recognition, prevention, and treatment of COPD; Discuss the role of lifestyle modification in the prevention and treatment of COPD; Discuss the targeted use of spirometry for diagnosis based on prescreening with validated instruments; Discuss current concepts of therapy, appreciating the importance of adopting evidence based guidelines for improving COPD patient care in clinical practice:

Label	Frequency	Percent	Valid Percent
Yes	111	88.1	90.2
Somewhat	12	9.5	9.8
Not at all	0	0.0	0.0
Total Valid	123	97.6	100.0
Total Missing	3	2.4	
Total	126	100.0	

Upon completion of this activity, I can now - Describe evolving minimally invasive spinal surgical procedures; Discuss the indications for minimally invasive spine surgery; Explain expected outcome differences between traditional and minimally invasive spinal surgical techniques:

Label	Frequency	Percent	Valid Percent
Yes	78	61.9	67.2
Somewhat	36	28.6	31.0
Not at all	2	1.6	1.7
Total Valid	116	92.1	100.0
Total Missing	10	7.9	
Total	126	100.0	

Upon completion of this activity, I can now - Discuss the prevalence of migraine headaches, and how often appropriate diagnosis is missed; Distinguish between a migraine headache and sinus headaches, tension-type headaches and other types of headaches; Effectively manage migraines through a combination of acute and preventive pharmacologic and non- pharmacologic therapy; Effectively communicate with patients about lifestyle changes, preventive and acute treatment strategies:

Label	Frequency	Percent	Valid Percent
Yes	105	83.3	92.9
Somewhat	7	5.6	6.2
Not at all	1	0.8	0.9
Total Valid	113	89.7	100.0
Total Missing	13	10.3	
Total	126	100.0	

Upon completion of this activity, I can now - Appreciate the need to recognize and treat Alzheimer's dementia earlier in the disease process; Treat the psychiatric complications that may occur as part of Alzheimer's dementia; Attempt to improve not only cognition and memory, but to improve quality of life for the patient and family; Employ evidence-based clinical practice guidelines when treating patients with Alzheimer's dementia:

Label	Frequency	Percent	Valid Percent
Yes	90	71.4	88.2
Somewhat	10	7.9	9.8
Not at all	2	1.6	2.0
Total Valid	102	81.0	100.0
Total Missing	24	19.0	
Total	126	100.0	

Overall, I would rate this activity as:

Label	Frequency	Percent	Valid Percent
Excellent	68	54.0	54.4
Very Good	50	39.7	40.0
Good	6	4.8	4.8
Fair	1	0.8	0.8
Poor	0	0.0	0.0
Total Valid	125	99.2	100.0
Total Missing	1	0.8	
Total	126	100.0	

Overall, this activity was effective in enhancing my confidence in caring for patients with the condition(s) presented?

Label	Frequency	Percent	Valid Percent
Strongly Agree	54	42.9	43.2
Agree	67	53.2	53.6
Neutral	4	3.2	3.2
Disagree	0	0.0	0.0
Strongly Disagree	0	0.0	0.0
Total Valid	125	99.2	100.0
Total Missing	1	0.8	
Total	126	100.0	

Overall, this activity was effective in improving my knowledge in the content areas presented:

Label	Frequency	Percent	Valid Percent
Strongly Agree	66	52.4	52.8
Agree	57	45.2	45.6
Neutral	2	1.6	1.6
Disagree	0	0.0	0.0
Strongly Disagree	0	0.0	0.0
Total Valid	125	99.2	100.0
Total Missing	1	0.8	
Total	126	100.0	

As a result of this activity, I have learned new strategies for patient care:

Label	Frequency	Percent	Valid Percent
Strongly Agree	51	40.5	41.1
Agree	67	53.2	54.0
Neutral	5	4.0	4.0
Disagree	0	0.0	0.0
Strongly Disagree	1	0.8	0.8
Total Valid	124	98.4	100.0
Total Missing	2	1.6	
Total	126	100.0	

How likely are you to implement these new strategies in your practice?

Label	Frequency	Percent	Valid Percent
Very likely	90	71.4	73.8
Somewhat likely	29	23.0	23.8
Unlikely	0	0.0	0.0
Not applicable	3	2.4	2.5
Total Valid	122	96.8	100.0
Total Missing	4	3.2	
Total	126	100.0	

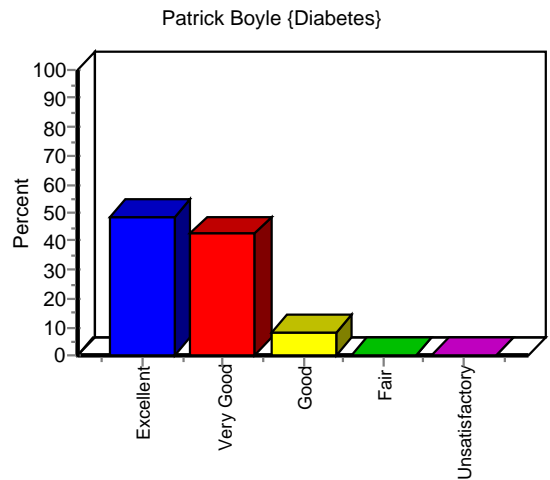

When do you intend to implement these new strategies into your practice?

Label	Frequency	Percent	Valid Percent
Within 1 month	93	73.8	76.9
1-3 months	19	15.1	15.7
4-6 months	3	2.4	2.5
Not applicable	6	4.8	5.0
Total Valid	121	96.0	100.0
Total Missing	5	4.0	
Total	126	100.0	

In terms of delivery of the presentation, please rate the effectiveness of the speaker: Patrick Boyle, MD (Diabetes):

Label	Frequency	Percent	Valid Percent
Excellent	61	48.4	48.8
Very Good	54	42.9	43.2
Good	10	7.9	8.0
Fair	0	0.0	0.0
Unsatisfactory	0	0.0	0.0
Total Valid	125	99.2	100.0
Total Missing	1	0.8	
Total	126	100.0	

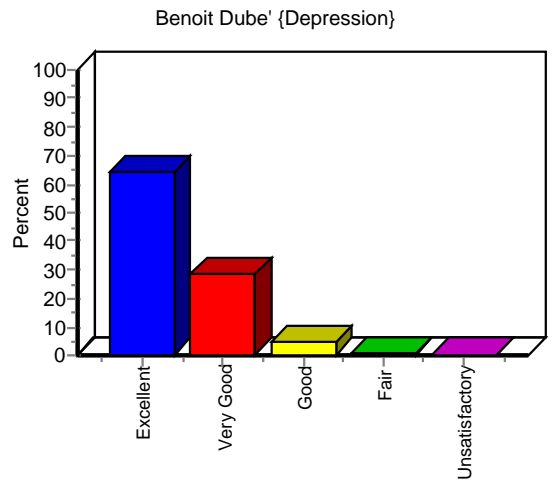

In terms of delivery of the presentation, please rate the effectiveness of the speaker: Alexandre Ferriera, MD (Dyslipidemia):

Label	Frequency	Percent	Valid Percent
Excellent	76	60.3	60.8
Very Good	42	33.3	33.6
Good	7	5.6	5.6
Fair	0	0.0	0.0
Unsatisfactory	0	0.0	0.0
Total Valid	125	99.2	100.0
Total Missing	1	0.8	
Total	126	100.0	

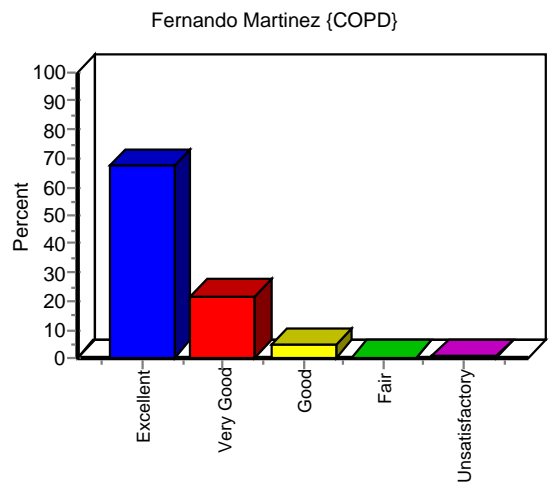

In terms of delivery of the presentation, please rate the effectiveness of the speaker: Benoit Dube', MD (Depression):

Label	Frequency	Percent	Valid Percent
Excellent	81	64.3	65.3
Very Good	36	28.6	29.0
Good	6	4.8	4.8
Fair	1	0.8	0.8
Unsatisfactory	0	0.0	0.0
Total Valid	124	98.4	100.0
Total Missing	2	1.6	
Total	126	100.0	

In terms of delivery of the presentation, please rate the effectiveness of the speaker: Fernando Martinez, MD (COPD):

Label	Frequency	Percent	Valid Percent
Excellent	85	67.5	71.4
Very Good	27	21.4	22.7
Good	6	4.8	5.0
Fair	0	0.0	0.0
Unsatisfactory	1	0.8	0.8
Total Valid	119	94.4	100.0
Total Missing	7	5.6	
Total	126	100.0	

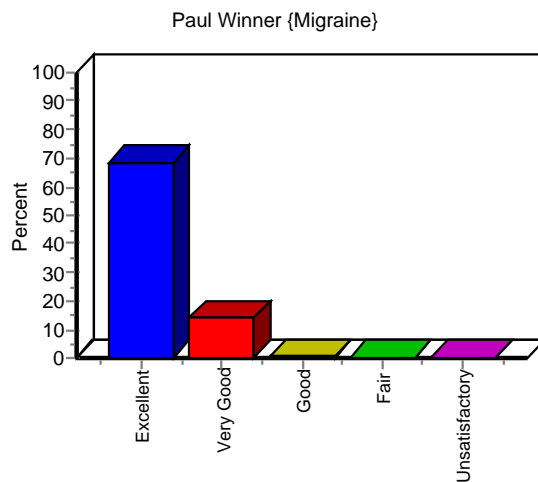

In terms of delivery of the presentation, please rate the effectiveness of the speaker: Curtis Cox, MD (Spine):

Label	Frequency	Percent	Valid Percent
Excellent	45	35.7	40.2
Very Good	45	35.7	40.2
Good	15	11.9	13.4
Fair	6	4.8	5.4
Unsatisfactory	1	0.8	0.9
Total Valid	112	88.9	100.0
Total Missing	14	11.1	
Total	126	100.0	

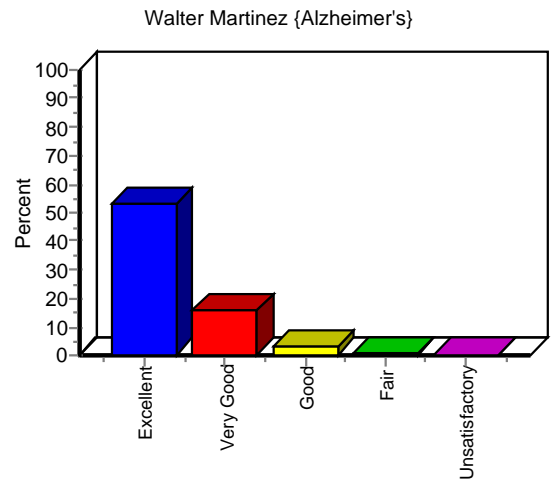

In terms of delivery of the presentation, please rate the effectiveness of the speaker: Paul Winner, MD (Migraine):

Label	Frequency	Percent	Valid Percent
Excellent	87	69.0	82.1
Very Good	18	14.3	17.0
Good	1	0.8	0.9
Fair	0	0.0	0.0
Unsatisfactory	0	0.0	0.0
Total Valid	106	84.1	100.0
Total Missing	20	15.9	
Total	126	100.0	

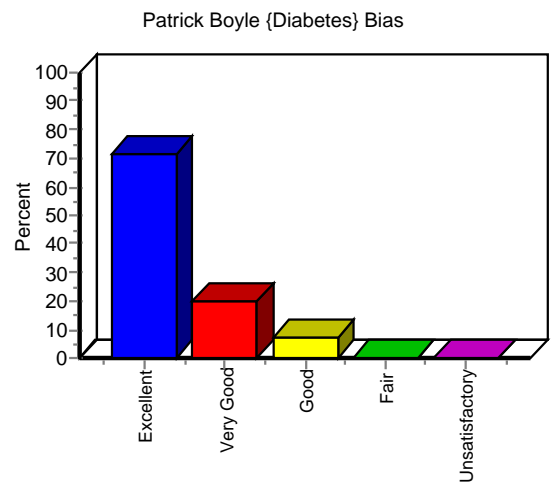

In terms of delivery of the presentation, please rate the effectiveness of the speaker: Walter Martinez (Alzheimer's):

Label	Frequency	Percent	Valid Percent
Excellent	67	53.2	72.8
Very Good	20	15.9	21.7
Good	4	3.2	4.3
Fair	1	0.8	1.1
Unsatisfactory	0	0.0	0.0
Total Valid	92	73.0	100.0
Total Missing	34	27.0	
Total	126	100.0	

To what degree do you believe that the subject matter was presented fair, balanced, and free of commercial bias? Patrick Boyle, MD (Diabetes):

Label	Frequency	Percent	Valid Percent
Excellent	90	71.4	72.6
Very Good	25	19.8	20.2
Good	9	7.1	7.3
Fair	0	0.0	0.0
Unsatisfactory	0	0.0	0.0
Total Valid	124	98.4	100.0
Total Missing	2	1.6	
Total	126	100.0	

To what degree do you believe that the subject matter was presented fair, balanced, and free of commercial bias? Alexandre Ferriera, MD (Dyslipidemia):

Label	Frequency	Percent	Valid Percent
Excellent	100	79.4	80.6
Very Good	21	16.7	16.9
Good	3	2.4	2.4
Fair	0	0.0	0.0
Unsatisfactory	0	0.0	0.0
Total Valid	124	98.4	100.0
Total Missing	2	1.6	
Total	126	100.0	

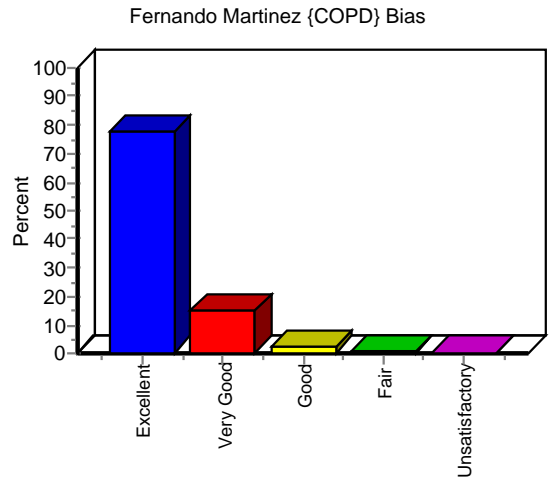

To what degree do you believe that the subject matter was presented fair, balanced, and free of commercial bias? Benoit Dube', MD (Depression):

Label	Frequency	Percent	Valid Percent
Excellent	97	77.0	78.9
Very Good	23	18.3	18.7

What is your professional degree?

Comment
FNPS

What is your specialty?

Comment
Assistant Professor
Internal Medicine x2
Geriatrics
Family Medicine
Correctional Medicine
General Surgery

As a result of this activity, I have learned new strategies for patient care. List these strategies:

Comment
Using higher dose and selective medications for migraines. Earlier screening for memory loss and use of meds for COPD
Separate between asthma and COPD and how to manage either
The newer medications recommended for diabetes and when to use them
Enhanced awareness
Apply new guidelines in my practice. Use medications which are less likely to fail. Take a little more time on history
Use of Byetta and insulin. Treat diabetes patients with normal lipid levels with a statin
More aggressive treatments
How to selectively use anti-depressants. Better management of lipids for various populations
Guidelines for treatment of dyslipidemia. New procedures in spinal surgery with improved outcomes
Treatment of migraines and diagnosing of diabetes
Diagnosing diabetes and avoiding lipid with statins
Treat high triglycerides
Will implement information into clinical management
Diabetic treatment options
Step by step management of diabetes
Will screen more appropriately for COPD with spirometry. Better diagnose migraine headaches
Will initiate Byetta earlier and more frequently
New drugs to improve diabetic care and better COPD screening. Better migraine treatment and management
Optimizing good blood glucose control
New imaging for Alzheimer's
More information about COPD and migraine management
Dx and Rx in depression and COPD
Good patient care
Proper drug combinations for treating depression. Use of triptans and Nsaids for acute migraine
Careful to differentiate asthma from COPD and be more watchful for diabetes
The diabetes treatment combination algorithm. Use of ICS as agonist in asthma vs COPD. When to go to migraine prevention
Increased use of spirometry
How to manage diabetes and COPD
Use of agents to increase HDL and algorithm of medications to treat diabetes
Implementing guidelines and appropriate medication uses

Comment
I have learned if a patient with headache and motor weakness to think of brain tumor. Tell patient with COPD that they have a much older lung than their age and to quit smoking
Managing COPD with steroids earlier. Managing diabetes with statins and asking more questions with suspected depression
Counseling patients on lung age based on spirometry to decrease smoking
Use the knowledge in my practice
Use of Metformin as 1st line agent. More aggressive therapy in patients with low HDL and slightly elevated LDL's
Assessment and treatment of dyslipidemia in diabetic patients
Benefits of minimal invasive surgery
Received updated information
Refer patients earlier for MIS consultation
Treatment of diabetes and Alzheimer's
Treatment of depression and evaluate suicide risk in depressed patients
Follow clinical practice recommendations
Treatment algorithm for diabetes and more effective treatment for migraines
Better use of Niacin
Treatment of migraines and depression treatment regimen
Benefits of MIS
Strategies for diagnosing COPD early and with proper med treatment
Combination therapy for depression and indications for MIS
Using more Niacin for lipid management and use of a screening tool for COPD
The effective treatment of diabetes with BMI's greater than 31
Management of LDL more aggressively
Treatment of migraine
Increase use of combination medications to treat diabetes
Treatment of diabetes and depression
Treating diabetes with incretins
Treatment of COPD
Use of combination meds for diabetes
Adding Lithium to SSRI
Management of depression and lipid disorders
Byetta Rx for diabetes. Use of combination therapy for COPD
Noninvasive spinal surgery and treatment options for migraines
Better understanding of diagnosis of COPD
Diabetes agents
Treatment of major depression, COPD treatment and diabetes medication choices
More focused approach to treatment of topics discussed. The COPD was very informative with tips on diagnosis and treatment
Treat HDL more aggressively in diabetes. Screen more for depression and start to use spirometry more
Use lung age to deter smoking
Combination of steroids and bronchodilator for COPD vs single therapy for asthma
Use more spirometry and suspect migraine more often
Present dx to patient in terms of lung age and not FEV numbers. Phrasing side effects in more normalized terms to patients with MADD
More open to trying newer therapies
Treatment of depression and migraines

What topics would you like to see offered as CME activities in the future?

Comment
Tobacco addiction and treatment and pharmacology update
DVT
Infectious diseases and tropical diseases
HTN, stroke, autism and alternative medicine
Pain management
Congestive heart failure
Women's health
Immunizations
Hormone replacement therapy and insulin therapy
Vitamin D
More on the use and interrelations of new medications and insulin Rx in type 2 diabetes
Aging topics and sleep disorders
Treatment of CHF and osteoporosis
Management of thyroid disease and interpretation of thyroid labs. Management of hepatitis B and C and HIV disease
Orthopedics in primary care and anti-aging medicine topics
Chronic back pain and dermatology
Pain management
Coagulation disorders
Infectious disease treatment and dermatology topics
Hypertension and various cancers

Need a more structured format for Q&A process
Overall a very good program
I was pleased to see the Spinal/Migraine and Alzheimer's included
I would like to see more events here in Atlanta. Overall it was a well organized conference
Good job
Very good, with good speakers and nice visual slides. I look forward to future CME programs
Dr. Ferreira's presentation was the most impressive
Great conference
Thank you
Dr. Winner had the best discussion
This was a great series of lectures with practical information
Excellent program
Perfect selection of the topics
Q&A and powerpoint presentation was clear and concise
Thank you for the excellent CME
I like the one day seminar close to home
Should put brand names of drugs in parenthesis
The handout is beneficial. Thank you.
It was a very good course and well put together
Great conference
Excellent program and I am glad that you provided it
Dr. Sherman did a fantastic job in moderating the conference
I liked the conference location
Great conference
Very good program-thanks
Excellent topics and speakers
Thank you for the CME. Today's speakers were excellent and very informative. Dr Dube' and Dr. Ferreira were excellent speakers. Dr. Paul Winner was an awesome speaker
Wonderful course-thanks a lot
Excellent conference

Comment
Tremendous lecture on migraines! It was one of the best!
Very good conference overall
Better coordination when dealing with communication. I was informed that the conference would be at Perimeter Park Westin
Good meeting
Excellent speakers and topics-thank you very much
Excellent meeting!
The best lecture that I have ever heard on Alzheimer's and I am a certified pathologist
Excellent
NACE rocks!
The lecture on spine surgery was a little too technical for my needs.
My first NACE conference and I truly enjoyed the presentations and it was done very well
Great slides.
I thoroughly enjoyed this conference, the pre and post questions were good, the faculty was excellent and the venue was great
I would prefer a venue with free parking. Consider a venue change to Cobb Galleria Conference Center - free parking!
Great conference
Very good and organized CME
